

# Families & Fellowship

Hebrews 10:19-25

## Happy Families

It's not always easy to be happy families especially when we have all been stuck indoors together for such a long time!

Brothers and sister can get annoying. Mums and Dads can get stressed because they need you to do things or to keep quiet so they can think straight!

It's been tough on all of us, and we need to take time to think of all the good things and great times that we have been able to spend together.

If you have the game Happy Families, why not play it this week with those in your house and remember how lucky we are to have our families at home and our church family too, with God as our Father.

Staying in touch.....  
**Have you ever received a letter in the post?  
Exciting isn't it!**

Not everyone has a tablet or computer and some don't even have the internet!!!

Why not write a letter or make a card to send to someone in junior church, from the church or one of our interns.

Hopefully they will write one back.

## Prayer time

Lord God, our Father, thank you for all the things you have done for us.

Thank you for everything you created in the world which is so beautiful.

Thank you for our families and friends who we miss so much.

Thank you for being our friend and our heavenly father.

We pray that we will be able to meet again soon with all our family, friends and our church family, so we can enjoy being together and

being *happy families*. **Amen**
