

Church ???

Why ???

Does it work ???

Come up with a poster advertising why people should go to church or maybe an invite for someone to come along.

What makes it good and how would you get others to come?

After the flames of Pentecost and hearing about God in a language they could understand, lots of people joined the church. They became friends, met and worshipped together like we do at our church. Jesus told us he will be with us even if there is only 2 or 3 of us meeting together. Our church welcomes everyone to come in and join us to praise and say thank you to God.

A church needs people for it to work properly. Without people who can tell others about the amazing things that God and Jesus do for us, there would be no church. The building might be there, but without the people, it won't work. We need to do what we can, to tell our friends and invite them to join in our zoom chats and then bring them along to Junior Church when we are ok to meet up again.

Who would you like to invite?

What does this need to make it work?

- a) Car f) School
b) Hot air balloon g) Church
c) Dog h) Christian
d) Bicycle
e) DVD

Nothing works on its own. Everything needs something/someone to operate it or to give it life. The Holy Spirit helps Christians to do what God wants. Its like a power source that brings Christians and worship to life.

We all need the Holy Spirit to give us life.
