

Keeping you informed with news on the mission partners we support, relevant global issues, prayer points and news from BMS. **If you would like to be part of High Street's World Mission team, or to know more, please talk to one of the team: Janet Briant, Polly Eaton, Joe Egan, Jennie Sugg, Chris Sugg, Carol Tipson.**

Inspirational

Earlier in October we had an inspirational evening hearing from Daniel Munayer about the life-changing peace and reconciliation work of Musalaha. We were challenged to think about our personal role in conflict resolution locally and globally. To read more about Musalaha visit <https://www.musalaha.uk/> and <https://musalaha.org/>. To watch the video from the 2021 summer camp go to <https://>

We are planning to commit to supporting a **new BMS mission partner family** at the forthcoming church meeting.

COP27 - a call to pray

There are so many pressing and immediate issues that demand our attention and cause us to fear. Yet for many, the issue of climate change continues to be equally as pressing. Look at an image of the Earth from space at night. Many areas shine with lights. Many are black, including much of Africa. Places where people feel the impact of climate change first, yet who have contributed little to its cause. The urgency is clear. The task seems daunting. A huge ask. Yet God's people are a people of hope.

When praying for the forthcoming COP27 conference check out the excellent resources and prayer points found here:
